THE DIRECTORATE

Realizing the important role of education which plays in the overall national development, the Maharshi Dayanand University created a Correspondence Cell during 1987-88 for imparting education through 'Correspondence Course' leading to the award of B.Ed. degree. The University, with the passage of time and development of technology and requirement of society and University during 90s upgraded the Correspondence Cell to the level of a Directorate and has expanded it tremendously to offer a wide spectrum of courses through a net work of Study Centres throughout the country. In view of the enormously increased demand for higher education throughout the country because of awareness about its significance, whereas the system of higher education could not accommodate this ever increasing demand on the one hand, and the recent amendment in the Maharshi Dayanand University Act by the State Government, the Directorate, has restricted delivery of its courses to distance learners on its own, and has decided to provide opportunities for higher education to a large segment of population especially disadvantaged groups living in remote and rural areas, adults, housewives and working people, on the other.

The Directorate seeks to create, preserve, and discriminate knowledge to build competitive capability for holistic development of man and society. The various programmes offered by the Directorate range from conventional to professional as per needs of the area and employment opportunities available in the country. In order to meet the growing demand of open and distance learning, the Directorate has enriched in terms of resources for further access to the roots in the rural domain. The University is committed to encourage interdisciplinary higher education and research to spread knowledge to every strata of the society. It aims at creating an innovative, value-based, and research-oriented world-class learning environment and establishing itself as a centre of excellence. The University envisions promoting quality education and research through interdisciplinary understanding, state-of-the-art learning, and the use of emerging knowledge for developing world-class human resources capable of mastering the global challenges of future technology and management.

Now the Directorate of Distance Education of Maharshi Dayanand University, Rohtak has decided to offer 15 Undergraduate/Postgraduate programmes mentioned in the Information Brochure for Distance Learners. The reasons for the popularity of its programmes have been account of carefully designed curriculum, well planned teaching learning strategies, effective student support system and fair examination and evaluation system.

The DDE believes in providing full support and services to its students and ensuring the removal of difficulties at personal level so that the participation of the students in the programmes offered by the DDE becomes really effective and meaningful. Candidates facing any difficulty in pursuing the distance education programmes of this University may contact the Director secretariat or concerned officer/official during working hours or submit his/her problem in writing to the **Grievances Cell** of the DDE. While submitting any problem/request/complaint the students are advised to write their details i.e. Name/Father's name, Registration No. (Allotted by the DDE), name of course (with year/semester) for prompt action, failing which such requests/complaints etc. will not be entertained.

The Directorate is housed in a spacious building, which is properly ventilated and easily accessible. Enquiry cell, Call Centre, Computer labs and Students Support System are manned by experienced staff. The credit for the present status of the directorate goes to the invaluable participation and co-operation of the University Authority, UGC, DEC (now dissolved), Statutory Bodies associated with Distance Education System.

In view of the current framework of the University Act, the Directorate has evolved the concept of "**Students Support Services Camps (SSSCs)**" to help and groom the distance learners in several ways.

Student Support Services in open and distance learning system is quite different from other services. These services are not confined only to interactive counselling or solving the learners problems but also include to promote distance learning to address the issue of continuous upgradation of skills so as to produce manpower resources of the kind and the number required by society, to fulfill the expectations indicated in the National Education Policy (1986). In addition to the services already mentioned the focus of the educators shall also be on learners' personality development, soft-skills, career counseling and guidance, community education.

Further, the SSSCs are aimed to facilitate learning, counselling and to solve the problems of the distance learners which they face during their self-study from the study material supplied by the Directorate. Through SSSCs, these learners get an opportunity to interact with the counsellors as well as with the peer group. Since the learners belong to different parts of the state/country and from different streams, so it is essential, to make the distance education programme not only meaningful and useful for the students pursuing different programmes being offered by the University through its Directorate but also to achieve the national objective of providing quality education to all and to reach at unreachable places.
