3. The Director,
Career Counseling and Placement Cell.

Sub:- Measures to streamline examination system and other related issues in the University and Colleges.

Sir/Madam,

I am directed to inform you that State Higher Education Council, Haryana constituted a Committee vide letter No. 18/1-2011 UNP (5) dated 30.05.2013 as conveyed by the Principal Secretary to Government of Haryana, Higher Education Department, Chandigarh. The meeting of committee was held on 26.06.2013 in the office of the Vice-Chancellor Kurukshetra University, Kurukshetra and the said Committee regarding Curricula, Pedagogy and Placements recommended as under:-

F. Curricula:

The curricula should be periodically upgraded using feedback from teachers, students, business & industry, alumni etc. so that our students are well trained to compete successfully at the global level. Piece-meal modifications of the syllabi may be avoided as these lead to increased examination work through printing of different question papers for the same subject. The syllabi should be uploaded on the website of the University and should be based on a model curriculum for a given course in different universities so as to have maximum uniformity. It was recommended that Kurukshetra University may be assigned the task of preparing the model curricula for different programs. Also, while designing the curricula for undergraduate courses, teachers from colleges of different regions should be given uniform representation in the Board of Studies.

G. Pedagogy:

To make the teaching more effective, interactive and participative component should be enhanced. Pedagogy should keep evolving in consonance with the new technology for this purpose and the use of power point presentations, smart boards:

and other means of ICT should be encouraged. Also more of project work and case studies should be included as per requirement of various programmes. All these pedagogical measures will help in creating more interest for increased attendance and thus should benefit the students for better learning

H. Placements:

In addition to imparting knowledge to our students, higher education today includes training for professionalism with good work habits. Placements of students constitute one of the important criteria for rankings under the present day scenario. Therefore, with a view to give more emphasis to this activity, placement cells should be established in every institution to take care of placements for students of different programmes. Placement cells should be strengthened for the pre-placement training of students for soft skills, communication skills, employability skills, leadership etc.

You are requested kindly to take further necessary action in the matter.

Yours faithfully,

Incharge (Academic) 5/9/13
