The Principal

Subject- U.G.C Sponsored Workshop on "Sexual Harassment of Women at Workplace" on March 28, 2017

Dear Madam/Sir

It gives immense pleasure to inform you that Women's Studies Centre is organising one day workshop on, "Sexual Harassment of Women at Workplace" on March 28, 2017. Over the last decade, there has been a phenomenal increase in violence against women as reported in print and electronic media. The incidence of rapes/gang rapes, eve-teasing, molestation, abduction, sexual harassment at work place, etc. are increasing day by day. As more and more girls/women attend school and college, and join the labour force -- the feminisation of labour -- they become more visible, independent and self-confident. More the women participate in public domain; the more they are back lashed. Of all the crimes inflicted on women, the sexual harassment at workplace is least discussed. Rather, the issue is pushed under the carpet and we generally believe that things are just fine at workplace and women are safe.

With this backdrop, Women's Studies Centre, M.D. University, Rohtak has planned to organise this workshop with an objective to create sensitization and discuss strategies to deal with sexual harassment at the workplace. To initiate dialogue between Women's Studies Centre and Women Cells in colleges, we are inviting the representatives of Women's Cell and faculty members of the colleges affiliated to Maharshi Dayanand University, Rohtak. You are requested to nominate coordinator of Women Cells as well as other staff members of your college to attend the

workshop. As per U.G.C guidelines, representation of your college is necessary. Please confirm the participation either on contact numbers or email id. given below.

Workshop will be held from 10.00 a.m. to 5.00 p.m. in Swaraj Sadan, Institute of Social and Economic Change (Ground Floor), M. D. University, Rohtak.

Regards
